

Declaration
For using GMO-free raw materials and manufacturing procedures
in accordance with GMO EU regulations 1829/2003 and 1830/2003

Product:
Instant Cereal Beverage

Herewith we declare that we do not use any genetically modified organisms or genetic engineering for manufacturing coffee extracts and instant cereal beverages. Also we do not use any irradiation.

The coffee extracts and instant cereal beverages themselves are not GMO nor they do contain any. To the best of our knowledge and current research on international market, no genetically modified raw coffees and coffee substitutes are on the market or in the chain of production.

In accordance with current European legislation the extracts made of above mentioned products are manufactured by using water for the extraction process exclusively. In consequence we do not use genetically modified auxiliary matter.

Concerning the applied raw materials, we possess suppliers declarations that make sure, that no genetically modified raw materials or genetic engineering are used, that have to be declared.

Therefore the products do not have to be declared in terms of GMO EU regulations 1829/2003 and 1830/2003.
